GONG STANDS

– OWNER'S GUIDE –

DOBANI™ Rosewood Pedestal Gong Stand

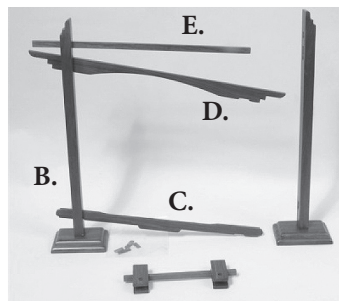

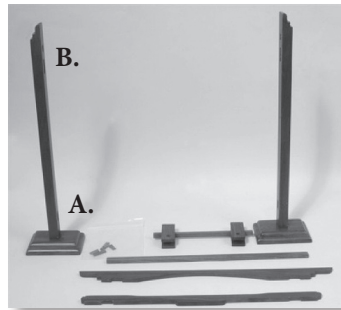

In this box, you will find a total of 15 pieces of the following items:

- A. 2 base pieces
- B. 2 upright pieces with pegs at bottom and slots on the sides
- C. 1 bottom piece with rounded ends and notches
- D. 1 middle piece with arch and notches
- E. 1 top flat piece
- F. 1 holder with 2 holes (Excluding models with GSDR code)
- G. Bag with 6 wedge pieces
- H. Tuning tool (not shown)

STEP 1

Start with the 2 base pieces A, and position the longer side, right to left or front to back, as you prefer. Slide the round peg at the bottom of upright B into the hole of the base A. Rotate upright B until the top step-design faces out.

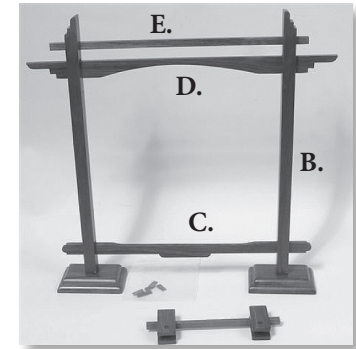

STEP 2

Place the bottom piece C, with notch facing down, into one of the upright pieces B. Then continue and put the middle piece D, with the arch facing down, into the upright B. Then add the top flat piece E.

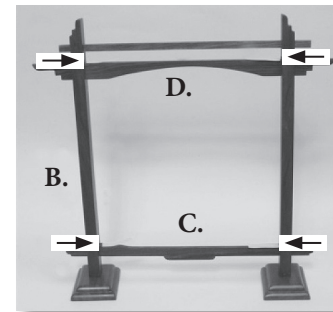

STEP 3

Put pieces C, D & E through the opposite upright B. Begin with the middle piece just give it a head start. Then slide the bottom until the notch is all set and continue working your way up the stand.

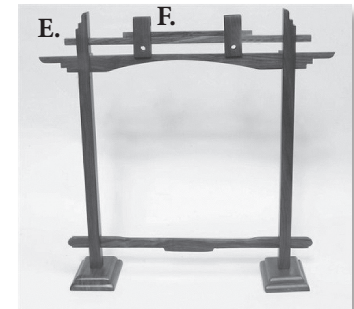

STEP 4

Take the 4 wedges and place one wedge on the top outer ends of the bottom piece C (see arrows for location). Push them towards the upright pieces B and slide into slots to make the joint nice and tight. Do all 4 joints of pieces C & D. We have included 2 extra wedges.

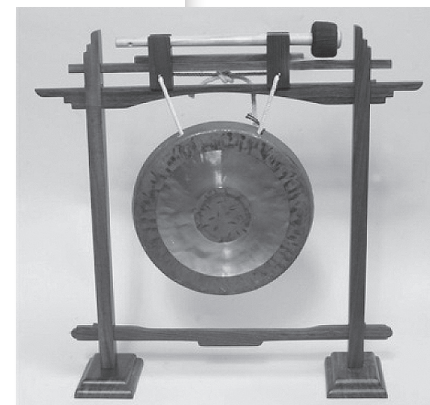

STEP 5

Place the holder F, with the holes facing down, on the top piece E. This just sits on top of flat piece of wood.

STEP 6

Your gong stand is now complete. See how beautiful it looks with a gong...

(Gongs sold separately)
